Subject: Corson letter redone, edited too

I would like to express my support for Chip and Jen Corson's new venture. I believe we must trust the future to those who are taking steps to create businesses and employment opportunities which will positively impact the future of the year round community. I also trust that the Town will provide them with guidance in resolving some of the issues that are of concern to many who live in their neighborhood. I am fairly certain the venue will not be running at full speed for all the hours the application mentions. I am a far neighbor, but might enjoy some of the music wafting over the tree tops. I believe we need to work together harmoniously to ensure Chebeague's year round future.

Thank you.
